RE: Looking for internship for Graphic Designer, Video Editor, Web application Designer & Developer and remote jobs at Broome County District, New York

Dear Ms. Delanoy,

My name is Abida and I am a fourth-year graphic design student who specializes in multimedia design and web development. I was pleased to come across your website because of how aesthetically and functionally intuitive the page was organized and how it truly conveyed the message of your brand. As a web developer and graphic designer, I can truly appreciate the role graphic design plays in not only brand messaging but client engagement. I'm writing to inquire about the open position for a graphic design, as I see that many of the strategies used on your website are skills that I am strong in. I see this as an opportunity to not only expand my knowledge beyond my studies, but to help contribute to the success and strength of the SAP Team.

While researching your company on current openings, I was happy to learn your workplace culture lives out the values you set forth. As a Jr. Web Application Developer or Jr. Graphic Designer, I thrive on taking challenges in a fast-paced environment and my ability to be flexible and adapt to user needs will allow me to be successful in this respect. As someone who grew up struggling academically, not because of a lack in effort, but because of a learning condition, I can guarantee that my commitment to success is unparalleled. The journey to success is going to test your character along with dedication. I personally love graphic design because it gave me a means of expressing myself, while most of the standard subjects did not. In graphic design, creativity is a powerful way to tell a story, convey emotion and establish a strong brand identity. My hopes as a graphic designer is to not only convey that story, but to ensure that the client's message, idea and brand is completely encompassed through my work.

Being provided the opportunity to join your team would enable me to take what I learned in school and apply it practically. Through my academic training, the goal was not only to share information and deliver a concise mission-driven message to benefit the organization. But also to leave my team inspired to make decisions and feel valued in our shared accomplishments. My academic and professional background has prepared me to not only meet expectations of your prestigious organization but to exceed them.

I hope to speak with you further about the possibility of joining your team! Thank you for your time and consideration.

Sincerely,

Abida Masoud
